Editorial Board Members

Joaquim Filipe , *Polytechnic Institute of Setúbal, Setúbal, Portugal*

Ashish Ghosh , *Indian Statistical Institute, Kolkata, India*

Raquel Oliveira Prates , *Federal University of Minas Gerais (UFMG),  
Belo Horizonte, Brazil*

Lizhu Zhou, *Tsinghua University, Beijing, China*

## **Rationale**

The CCIS series is devoted to the publication of proceedings of computer science conferences. Its aim is to efficiently disseminate original research results in informatics in printed and electronic form. While the focus is on publication of peer-reviewed full papers presenting mature work, inclusion of reviewed short papers reporting on work in progress is welcome, too. Besides globally relevant meetings with internationally representative program committees guaranteeing a strict peer-reviewing and paper selection process, conferences run by societies or of high regional or national relevance are also considered for publication.

## **Topics**

The topical scope of CCIS spans the entire spectrum of informatics ranging from foundational topics in the theory of computing to information and communications science and technology and a broad variety of interdisciplinary application fields.

## **Information for Volume Editors and Authors**

Publication in CCIS is free of charge. No royalties are paid, however, we offer registered conference participants temporary free access to the online version of the conference proceedings on SpringerLink (<http://link.springer.com>) by means of an http referrer from the conference website and/or a number of complimentary printed copies, as specified in the official acceptance email of the event.

CCIS proceedings can be published in time for distribution at conferences or as post-proceedings, and delivered in the form of printed books and/or electronically as USBs and/or e-content licenses for accessing proceedings at SpringerLink. Furthermore, CCIS proceedings are included in the CCIS electronic book series hosted in the SpringerLink digital library at <http://link.springer.com/bookseries/7899>. Conferences publishing in CCIS are allowed to use Online Conference Service (OCS) for managing the whole proceedings lifecycle (from submission and reviewing to preparing for publication) free of charge.

## **Publication process**

The language of publication is exclusively English. Authors publishing in CCIS have to sign the Springer CCIS copyright transfer form, however, they are free to use their material published in CCIS for substantially changed, more elaborate subsequent publications elsewhere. For the preparation of the camera-ready papers/files, authors have to strictly adhere to the Springer CCIS Authors' Instructions and are strongly encouraged to use the CCIS LaTeX style files or templates.

## **Abstracting/Indexing**

CCIS is abstracted/indexed in DBLP, Google Scholar, EI-Compendex, Mathematical Reviews, SCImago, Scopus. CCIS volumes are also submitted for the inclusion in ISI Proceedings.

## **How to start**

To start the evaluation of your proposal for inclusion in the CCIS series, please send an e-mail to [ccis@springer.com](mailto:ccis@springer.com).

# Foreword

Human-computer interaction (HCI) is acquiring an ever-increasing scientific and industrial importance, as well as having more impact on people's everyday lives, as an ever-growing number of human activities are progressively moving from the physical to the digital world. This process, which has been ongoing for some time now, was further accelerated during the acute period of the COVID-19 pandemic. The HCI International (HCII) conference series, held annually, aims to respond to the compelling need to advance the exchange of knowledge and research and development efforts on the human aspects of design and use of computing systems.

The 25th International Conference on Human-Computer Interaction, HCI International 2023 (HCII 2023), was held in the emerging post-pandemic era as a 'hybrid' event at the AC Bella Sky Hotel and Bella Center, Copenhagen, Denmark, during July 23–28, 2023. It incorporated the 21 thematic areas and affiliated conferences listed below.

A total of 7472 individuals from academia, research institutes, industry, and government agencies from 85 countries submitted contributions, and 1578 papers and 396 posters were included in the volumes of the proceedings that were published just before the start of the conference, these are listed below. The contributions thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. These papers provide academics, researchers, engineers, scientists, practitioners and students with state-of-the-art information on the most recent advances in HCI.

The HCI International (HCII) conference also offers the option of presenting 'Late Breaking Work', and this applies both for papers and posters, with corresponding volumes of proceedings that will be published after the conference. Full papers will be included in the 'HCII 2023 - Late Breaking Work - Papers' volumes of the proceedings to be published in the Springer LNCS series, while 'Poster Extended Abstracts' will be included as short research papers in the 'HCII 2023 - Late Breaking Work - Posters' volumes to be published in the Springer CCIS series.

I would like to thank the Program Board Chairs and the members of the Program Boards of all thematic areas and affiliated conferences for their contribution towards the high scientific quality and overall success of the HCI International 2023 conference. Their manifold support in terms of paper reviewing (single-blind review process, with a minimum of two reviews per submission), session organization and their willingness to act as goodwill ambassadors for the conference is most highly appreciated.

This conference would not have been possible without the continuous and unwavering support and advice of Gavriel Salvendy, founder, General Chair Emeritus, and Scientific Advisor. For his outstanding efforts, I would like to express my sincere appreciation to Abbas Moallem, Communications Chair and Editor of HCI International News.

# **HCI International 2023 Thematic Areas and Affiliated Conferences**

## **Thematic Areas**

- HCI: Human-Computer Interaction
- HIMI: Human Interface and the Management of Information

## **Affiliated Conferences**

- EPCE: 20th International Conference on Engineering Psychology and Cognitive Ergonomics
- AC: 17th International Conference on Augmented Cognition
- UAHCI: 17th International Conference on Universal Access in Human-Computer Interaction
- CCD: 15th International Conference on Cross-Cultural Design
- SCSM: 15th International Conference on Social Computing and Social Media
- VAMR: 15th International Conference on Virtual, Augmented and Mixed Reality
- DHM: 14th International Conference on Digital Human Modeling and Applications in Health, Safety, Ergonomics and Risk Management
- DUXU: 12th International Conference on Design, User Experience and Usability
- C&C: 11th International Conference on Culture and Computing
- DAPI: 11th International Conference on Distributed, Ambient and Pervasive Interactions
- HCIBGO: 10th International Conference on HCI in Business, Government and Organizations
- LCT: 10th International Conference on Learning and Collaboration Technologies
- ITAP: 9th International Conference on Human Aspects of IT for the Aged Population
- AIS: 5th International Conference on Adaptive Instructional Systems
- HCI-CPT: 5th International Conference on HCI for Cybersecurity, Privacy and Trust
- HCI-Games: 5th International Conference on HCI in Games
- MobiTAS: 5th International Conference on HCI in Mobility, Transport and Automotive Systems
- AI-HCI: 4th International Conference on Artificial Intelligence in HCI
- MOBILE: 4th International Conference on Design, Operation and Evaluation of Mobile Communications

# Preface

Preliminary scientific results, professional news, or work in progress, described in the form of short research papers (4–8 pages long), constitute a popular submission type among the International Conference on Human-Computer Interaction (HCII) participants. Extended abstracts are particularly suited for reporting ongoing work, which can benefit from a visual presentation, and are presented during the conference in the form of posters. The latter allow a focus on novel ideas and are appropriate for presenting project results in a simple, concise, and visually appealing manner. At the same time, they are also suitable for attracting feedback from an international community of HCI academics, researchers, and practitioners. Poster submissions span the wide range of topics of all HCII thematic areas and affiliated conferences.

Five volumes of the HCII 2023 proceedings are dedicated to this year's poster extended abstracts, in the form of short research papers, focusing on the following topics:

- Volume I: HCI Design - Theoretical Approaches, Methods and Case Studies; Multimodality and Novel Interaction Techniques and Devices; Perception and Cognition in Interaction; Ethics, Transparency and Trust in HCI; User Experience and Technology Acceptance Studies
- Volume II: Supporting Health, Psychological Wellbeing, and Fitness; Design for All, Accessibility and Rehabilitation Technologies; Interactive Technologies for the Aging Population
- Volume III: Interacting with Data, Information and Knowledge; Learning and Training Technologies; Interacting with Cultural Heritage and Art
- Volume IV: Social Media - Design, User Experiences and Content Analysis; Advances in eGovernment Services; eCommerce, Mobile Commerce and Digital Marketing - Design and Customer Behavior; Designing and Developing Intelligent Green Environments; (Smart) Product Design
- Volume V: Driving Support and Experiences in Automated Vehicles; eXtended Reality - Design, Interaction Techniques, User Experience and Novel Applications; Applications of AI Technologies in HCI

Poster extended abstracts are included for publication in these volumes following a minimum of two single-blind reviews from the members of the HCII 2023 international Program Boards. We would like to thank all of them for their invaluable contribution, support, and efforts.

July 2023

Constantine Stephanidis

# HCI International 2024 Conference

The 26th International Conference on Human-Computer Interaction, HCI International 2024, will be held jointly with the affiliated conferences at the Washington Hilton Hotel, Washington, DC, USA, June 29 – July 4, 2024. It will cover a broad spectrum of themes related to Human-Computer Interaction, including theoretical issues, methods, tools, processes, and case studies in HCI design, as well as novel interaction techniques, interfaces, and applications. The proceedings will be published by Springer. More information will be made available on the conference website: <http://2024.hci.international/>.

General Chair

Prof. Constantine Stephanidis

## Contents - Part III

### Interacting with Data, Information and Knowledge

Voyaging: Crowdsourc Application for Safe Travelling Experience .....	3
<i>Richie Ang and Owen Noel Newton Fernando</i>	
BingoFit: A Bingo Clothes Presentation System for Utilizing Owned Clothes .....	10
<i>Yukino Aoki, Kouta Yokoyama, and Satoshi Nakamura</i>	
Exploring Design Principles for Speech-to-Visualization Data Entry Interfaces .....	18
<i>Tamara Babaian</i>	
Crowdsourcing a More Realistic Emotional Lexicon Process .....	24
<i>Robert Ball, Joshua Jensen, and Samuel Romine</i>	
Exploring Opportunities for Visualization-Based Information Translation in Environmental Education: Using Taiwan's Chenglong Wetland as an Example .....	32
<i>Wen-Huei Chou, Yao-Fei Huang, Jia-Yin Shih, and Chung-Wen Hung</i>	
A Harmonized Multi-lingual Terminology for ICT Devices and Services with a User-Centric View .....	40
<i>Emmanuel Darmois and Martin Boecker</i>	
ProtoLife: Enhancing Mobile Multimedia Narratives Through Prototyping Techniques .....	46
<i>Yifan Deng</i>	
Development of Interactive Teaching Device for Difficult Teaching of Collaborative Robot .....	54
<i>Jeyoun Dong, Dongyeop Kang, and Seung-Woo Nam</i>	
Exchanging Files Securely in a Stationary Telepresence Consultation System Using Jitsi Meet .....	60
<i>Dennis Eller, Matti Laak, Dominic Becking, Anne-Kathrin Schmitz, Udo Seelmeyer, Philipp Waag, and Marc Weinhardt</i>	

Iteration, Iteration, Iteration: How Restructuring Data Can Reveal Complex Relationships Between Chronic Illnesses and the Apps Intended to Support Them .....	68
<i>Hannah Field, Lisa Thomas, and Emmanuel Tsekleves</i>	
Development of Applications that Integrate Information from Diverse Systems with a Focus on Information Organization .....	76
<i>Mayo Fukata and Eiichi Hayakawa</i>	
Characterizing the Information Consumer Behavior: An Explorative Case Study in a Chilean Organization Department .....	83
<i>María Paz Godoy, Cristian Rusu, Isidora Azócar, and Noor Yaser</i>	
Privacy-Preserving Data Management and Provision System for Personal Data Store .....	90
<i>Kaisei Kajita, Kinji Matsumura, and Go Ohtake</i>	
SPOTLink - An Interactive User-Driven Tool to Document and Share Assembly Knowledge in SME .....	97
<i>Christian Kruse and Daniela Becks</i>	
Understanding the Relationship Between Behaviours Using Semantic Technologies .....	103
<i>Suvodeep Mazumdar, Fatima Maikore, Vitaveska Lanfranchi, Sneha Roychowdhury, Richard Webber, Harriet M. Baird, Muhammad Basir, Vyv Huddy, Paul Norman, Richard Rowe, Alexander J. Scott, and Thomas L. Webb</i>	
Supporting Nail Art Consultation by Automatic Image Selection and Visual Information Sharing .....	110
<i>Yoshino Minakawa and Hiroshi Hosobe</i>	
Clarifying Patterns in Team Communication Through Extended Recurrence Plot with Levenshtein Distance .....	118
<i>Saki Namura, Sunichi Tada, Yingting Chen, Taro Kanno, Haruka Yoshida, Daisuke Karikawa, Kohei Nonose, and Satoru Inoue</i>	
Quantitative Assessment Methods for the Needs of Airline Safety Management Personnel .....	124
<i>Xueyan Peng and Yuan Zhang</i>	
Using Automatic and Semi-automatic Methods for Digitizing the Dictionary of Trinidad and Tobago English/Creole into a Graph Database .....	133
<i>Divindra Ramai and Phaedra S. Mohammed</i>	

I Have No Idea What Are These Terms! Exploring Users’ Understanding and Interpretation of Genealogy Results ..... 141  
*Lipsarani Sahoo and Mohamed Shehab*

Modeling Foraging Behavior in GitHub ..... 149  
*Abim Sedhain, Yao Wang, Brett Mckinney, and Sandeep Kaur Kuttal*

iWILL: A Real-Time Mobile Application to Expedite First-Aid and Reduce Casualties ..... 156  
*Palaniselvam Shyam Sundar and Owen Noel Newton Fernando*

“User Journeys”: A Tool to Align Cross-Functional Teams ..... 163  
*Jessica Tan*

Supporting Presentation Document Creation Using Visualization of Logical Relationship Between Slides ..... 168  
*Hiroka Umetsu, Mitsuhiro Goto, and Akihiro Kashihara*

Generation of Instruction Range Map Based on Analysis of Demonstrative Words and Spatial Domain for Reduction of Miscommunication Among Chinese, Vietnamese and Japanese in Care Facilities ..... 176  
*Binyu Wang, Weiqing Xiang, Masanari Ichikawa, and Yugo Takeuchi*

**Learning and Training Technologies**

Tiktok as a Learning Tool for Elementary School Students ..... 187  
*Paulina Magally Amaluisa Rendón, Carlos Alberto Espinosa-Pinos, and María Giovanna Núñez-Torres*

Automated Content Generation for Intelligent Tutoring Systems ..... 194  
*Andrew Emanuel Attard and Alexiei Dingli*

E-Newspaper in International Chinese Language Education ..... 202  
*Shasha Cai*

The iMagic E-Learning System on University Students’ Achievement During the COVID-19 Pandemic: Based on Learner-Centered Instruction ..... 210  
*Wei-Ting Chen and Mengping Tsuei*

Effect of Online Synchronous Peer-Tutoring Writing on the Writing Performance and Attitude of Children ..... 216  
*Wei-Ting Chen and Mengping Tsuei*

Investigation of Chromatic Perception of School Children During HCI in Computer-Supported Collaborative Learning .....	225
<i>Niki Choudhury and Jyoti Kumar</i>	
Learning Experience of Students:: A Framework for Individual Differences Based on Emotions to Design e-Learning Systems .....	231
<i>Jelle de Boer and Jos Tolboom</i>	
Augmented Reality as a Promoter of Visualization for the Learning of Mathematics in Ninth-Year of Basic Education .....	238
<i>Carlos Alberto Espinosa-Pinos, Paulina Magally Amaluisa Rendón, María Giovanna Núñez-Torres, and Juan Quinatoa-Casicana</i>	
Wordhyve: A MALL Innovation to Support Incidental Vocabulary Learning ...	246
<i>Mohammad Nehal Hasnine, Junji Wu, and Hiroshi Ueda</i>	
Evaluating Young Children’s Computational Thinking Skills Using a Mixed-Reality Environment .....	251
<i>Jaemin Hwang, Sungchul Lee, Yanghee Kim, and Mobasshira Zaman</i>	
Exergame to Promote Exercise Outside Physical Education Classes During a Pandemic .....	259
<i>Akari Kanei and Hiroyuki Manabe</i>	
Development and Application Study of Coding Learning Game Using Augmented Reality-Based Tangible Block Chips for Children of Low Age Groups .....	267
<i>Nayoung Kim</i>	
Challenges in Cybersecurity Group Interoperability Training .....	273
<i>Virgilijus Krinickij and Linas Bukauskas</i>	
Research on the Preference of University Students for the Form of Library Desktop Partition .....	279
<i>Jinzhu Li and Zhanying Gao</i>	
Exploring the Potential of Augmented Reality in English Language Learning: Designing an Interactive Pronunciation Training App .....	288
<i>Farzin Matin and Eleni Mangina</i>	
Integrating 360 Degree, Virtual Reality (VR) Content via Head Mounted Displays (HMD) into Social Sciences Classes .....	296
<i>Brian J. Mihalik, Hyunsu Kim, and Linda Mihalik</i>
